Early Folding Region
LoF
GoF
AlphaMissense classification
EVE classification (25% Uncertain)
GEMME classification
DeMaSk predicted consequence
Experimental data classification (SMPD1_residual_activity, Activity)
AlloSigMA 2 predicted consequence - pockets and interfaces
AlloSigMA 2 predicted consequence - cofactor sites
AlloSigMA 2 predicted consequence - active sites
PTM effect in function
PTM effect in regulation
Functional sites (active site)
Functional sites (cofactor)
EFoldMine - part of early folding region
PTM effect in stability
Stability classification, xray, (RaSP, FoldX)
Stability classification, xray, (Rosetta, FoldX)
